

2012 Beef Cattle Producer Seminars

Learn how to get the most money out of your cattle investment and how to obtain the optimum market price.

Guest speakers

- Dr. Francis Fluharty, The Ohio State University, research professor in Animal Sciences - addressing cow economics and maintaining cattle throughout the winter months.
- Dr. John Cumerford (Mar. 7 meeting only), Penn State University, Associate Professor of Dairy and Animal Sciences - addressing cow economics and maintaining cattle throughout the winter months.
- Jonathan Laughner, Penn State Extension - issues involving Marcellus Shale leasing and use of that money for taxes, ag investments and more.
- National Resources Conservation Service - discussing programs available through NRCS such as fencing, water systems, grazing and more.
