OR LIVE-AG.COM

2026 TERMS & CONDITIONS

1. All cattle are sold F.O.B. (freight on buyer) from the farm.
2. All cattle are weighed on certified scales.
3. All trucking will be arranged by United Producers and paid for by the buyer
4. If cattle weigh more than 100 lbs. over or under their base weight, buyers have the right to reject.
5. All heifers are guaranteed to be open. UPI representatives must be notified within 24 hours of receiving if proven otherwise.
6. All steers are guaranteed to be steers. UPI representatives must be notified within 24 hours of receiving if proven otherwise.
7. All announcements made the night of the sale will take precedence over printed material.
8. Consignors will be responsible for providing health papers for cattle sold to out of state buyers.

OUT OF STATE BUYERS

It is **YOUR** responsibility to check with the states you may wish to ship cattle to, prior to the sale. Cattle are being sold with **NO GURANTEES** on acceptability for inter-state movement.

SLIDE INFORMATION

Conventional Slide. Adjusts the price per hundredweight (cwt) if livestock weigh more than the base weight, with the slide adjustment stopping at the designated Weight Stop.

2-Way Slide. Adjusts the price per cwt equally for weights over or under the base weight with a 25# Weight Stop on both sides.

LA 2-Way Slide. Allows separate price adjustments for weights over and under the base weight. The price adjustment on weights under the base weight will always be equal to one half the rate over the base weight. The Weight Stop will be 25# for both directions. For example, if it is a \$.20 slide over the base weight then it will always be a \$.10 slide below the base weight.

LA Gain Slide. Allows for a designated rate to be applied to each pound over the base weight. In an example of a set of cattle selling with a base weight of 550# and a \$1 LA Gain Slide, if the cattle deliver with an average base weight of 560# then each pound over 550# will be applied to the selling price by \$1 (per pound) or a total of \$10 per animal.

LA 2-Way Gain Slide. Allows for a LA Gain Slide to go both ways. A rate will be designated for each way (and can be the same) with a 25# Weight Stop on cattle above the base weight and a 15# Weight Stop below the base weight.

Lot 1 David Granskog

20 Weaned Steers 500#

Delivery Dates: November 16 - 27, 2026

Origin: Home Raised

YOUR TRUSTED AGRICULTURE LENDER SINCE 1932

We are a full-service agricultural lender, with a team who understands the unique challenges often involved in agricultural and livestock lending. We have been a trusted, reliable source of financing for the family farm for more than 90 years.

We specialize in financing the following areas:

Livestock Loans: Short-term loans for livestock and other options to expand your breeding herd. We offer both revolving and annual lines of credit, with payment schedules that can match the timing of your livestock income.

Real Estate Loans: Competitive rates to refinance an existing real estate loan, to purchase a new farm, or to purchase other agricultural real estate. We also offer financing for contract livestock buildings.

Operating Loans: Funding to support general farm operating expenses and crop production.

Ag Leasing: Whether you need equipment, irrigation, a new farm shop, grain storage - virtually any non-real estate asset for your operation - our new lease program is a great option.
